

Need I go into details? Americans are overwhelmingly against the measures you plan to take on Monday. The June 2nd vote is important to all citizens. If you allow even more concentration of media ownership it will result in a narrower range of opinions and viewpoints in the mainstream media. It will mean that a handful of companies will dominate our public discourse to an extreme extent. It seems you are set to ignore valid criticism of your actions and ram these changes on through. I hope that at the last minute you realize how strong opposition is to your actions and come around. Don't become lackeys of these powerful corporations. They have great advantages that come from scale as it is. Please help to preserve what diversity of media we still have.

Thank you.
